All	Firefox Add-ons Marketplace	2025-01-01/2025-12-31	Summary of the content moderation engaged in at the providers' own initiative	<p>Mozilla is a trusted provider of open-source tools and platforms designed to empower individuals, foster collaboration, and champion privacy and security online. Content shared anywhere in the Mozilla Community must comply with the <a href="#">Acceptable Use Policies</a>. In addition, content shared in <a href="#">Add-ons Marketplace</a> is subject to the <a href="#">Firefox Add-on Policies</a>.</p> <p>For Add-ons Marketplace, we review content in various circumstances. First, we perform a holistic review of certain add-ons when they are submitted to the marketplace to ensure that they are complying with the Firefox Add-On Policies. Our review in these cases consists of scrutinizing the add-on's codebase and features, testing the add-on itself, and/or checking the add-on listing. When Mozilla determines that content on the Add-ons Marketplace violates one of the Firefox Add-on Policies, it informs the developer who created the add-on, and (except in the case of certain violations), generally provides a grace period for the violation to be corrected. If the violation is addressed in the given time frame, no further action will be taken against the add-on. If the violation is not addressed, the add-on is blocked on the Add-Ons Marketplace, and is not available for download.</p> <p>Moderation decisions may be reversed when a reviewer found or finds that (1) the prior decision was unsupported by evidence, (2) a secondary review indicates that, in fact, the content actioned was not illegal and/or did not violate Mozilla's policies, or (3) the appealing user's conduct may have violated the law or Mozilla's policies, but did not justify Mozilla's enforcement response.</p>
All	Firefox Add-ons Marketplace	2025-01-01/2025-12-31	Meaningful and comprehensible information regarding content moderation engaged in at the providers' own initiative	<p>Where we have not previously confirmed that an add-on complies with a given policy, we may review that add-on in response to a user or third party report. We will only review reports that contain sufficient information to allow us to understand the nature and basis of the alleged violation. All moderation of content within Mozilla products is performed by humans.</p> <p>We use automated tools to flag content in limited cases where certain data points indicate a higher likelihood of abuse, but we do not take action on that content until a moderator has reviewed it. Our system may automatically flag an add-on for review when certain criteria indicate that it presents a high risk of a violation—for example, where we have received multiple nonspecific reports about the add-on, or where the developer was submitting an add-on for the first time.</p>
All	Firefox Add-ons Marketplace	2025-01-01/2025-12-31	Qualitative description of the automated means	All of our content review is conducted by humans: from (1) our moderation vendor's staff, (2) the Add-ons product team, (3) our Trust & Safety Team, or (4) our Legal Team.
All	Firefox Add-ons Marketplace	2025-01-01/2025-12-31	Qualitative description of indicators of accuracy and possible rate of error of automated means	Because our automated systems only serve to flag high-risk content and all moderation decisions are made by human reviewers, we do not have accuracy metrics for the automated tools.
All	Firefox Add-ons Marketplace	2025-01-01/2025-12-31	Specification of the precise purposes to apply automated means	Our system may automatically flag an add-on for review when certain criteria indicate that it presents a greater risk of abuse—for example, where we have received multiple nonspecific reports about the add-on, where the developer was submitting an add-on for the first time, or where there are abnormalities in the add-on's reviews. However, we do not take action on flagged content until a human moderator has reviewed it.
All	Firefox Add-ons Marketplace	2025-01-01/2025-12-31	Safeguards applied to the use of automated means	Because our automated systems only serve to flag high-risk content and all moderation decisions are made by human reviewers, we do not have specific safeguards for the automated tools.
